

AI HEALTH TECH INTERNATIONAL FORUM

Keynote Speaker

Dr. Jason Hipp, MD/PhD
Chief Digital Innovation Officer
Mayo Clinic

He is a board-certified pathologist who has been active in the field of digital pathology, AI and cancer research. He spent most of his time in Industry, having worked at Novartis, BMS and AstraZeneca. He was also the first pathologist hired by Alphabet and was the lead pathologist at Google.

Moderator

Dr. Wayne Huey-Herng Sheu, Ph.D
Vice President

National Health Research Institutes

Vice-President Sheu served as the president of Taipei and Taichung Veterans General Hospitals for 7 years. In his book "AI Think You Slow Think", he publicly shared for the first time his frontline practical experience in using big data, introduced technology into the medical field, and presented the actual clinical application of AI. Results.

The Only One Real World Experience sharing lead you to Keep away from Potential Risk and Failure

**Topic : AI health Tech
vs
Innovative & Commercialization**

Saturday 08:30 -11:30

27 JUL 2024
